

## Distinctive Ring

### Distinctive Ring Instructions

1.  Wait until the full ringing pattern is complete before answering your telephone, so you'll know which number was dialed.
2. If you have both Call Waiting and Distinctive Ringing, the Call Waiting "beeps" use the same patterns as the Distinctive Ringing – to help you decide whether to interrupt your current conversation to answer the incoming call.

**Note:** Although you may have up to three telephone numbers assigned to your line with Distinctive Ringing, you still have only one line, so only one conversation can be held at a time.
